Empowering intelligent insurance

Insurance organisations are redefining their businesses due to threats from traditional and non-traditional competitors, increasingly stringent regulatory requirements, changing customer expectations, and the overwhelming number of claims resulting from catastrophic events.

In this new reality, how do you envision the future state of your organization? Build your transformation strategy with Microsoft Catalyst, a proven and powerful approach to innovation.

Let's ideate together

As part of Catalyst, meet with our experts and run an envisioning workshop, where we can ideate together using design-led thinking concepts and jointly define how to enable the digital transformation of your organization.

How Redspire can help

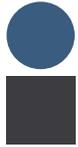

The Redspire Insurance Business Unit are Catalyst-ready and experts in delivering impactful business outcomes within the insurance industry.

Work with the team to leverage this unique and proven approach as we guide your organisation, department or team through the I.D.E.A framework and kick-start your digital transformation journey.

What is Microsoft Catalyst?

Build, plan, and execute business transformation strategies with a proven, innovative approach from Microsoft Catalyst—an envisioning and planning program that employs Microsoft Dynamics 365, the Microsoft Power Platform, and the Microsoft Cloud. Your business transformation starts with an I.D.E.A.

Start by finding the transformation strategy that's right for you. Define and prioritize your strategy using development activities, then foster ideation and drive decision making with an envisioning workshop.

Redspire Catalyst Process for Insurance

Starting with an Envisioning Workshop, unite stakeholders to provide a holistic approach to identifying and prioritizing your digital transformation strategy.

By working through the I.D.E.A. framework (developed with McKinsey, Harvard Business School and Microsoft), your business will develop a mutual understanding of business objectives, identify and prioritise business challenges, quantify the business value, visualise through a demonstration, PoC, or Pilot, and plan a programme of work to deliver your digital transformation.
